Our Vision

To integrate people with disabilities and display them as a valued part of the community. The integration will allow people to see the person, not the disability. We will create an environment in people with disabilities are given the same opportunities as people without disabilities.

Special Olympic Programs

What is Special Olympics?

Special Olympics is an international program of year round sports training and athletic competition for children and adults with intellectual disabilities. Benefits include improved physical fitness and motor skills, greater self-confidence, a more positive self image, friendships, and increased family support.

To be eligible to participate in Special Olympics, an athlete must be at least eight years old and identified by an agency or professional as having one of the following conditions: intellectual disabilities, cognitive delays, or significant learning or vocational problems due to cognitive delay that require or have required, specially designed instruction.
